

Democracy

The 66% Rule has created minority rule in California. Every year our state budget process is held hostage by a stingy minority who refuses to levy fair taxes on corporations and the wealthy. The media and politicians do not discuss this issue because resolving it, rationally, by returning majority rule (50%+), would put a crimp in their club's profits and create a strong citizenry who might begin to question the usefulness of the ruling elite's reasoning in creating public policy.

Don't you want your democracy
is back? Then contact your state
