WATERBOARDING IN POLAND!

The vacation of a lifetime can be yours with one simple call to your local mosque. Give your pledge of friendship, a five dollar donation and within 24 hours you are flown, first class, to the latest high-tech dungeon for the most advanced in waterboarding technique! The American Psychological Association double-think calls it "the" archetype of humane treatments abroad. Once you have been humanified there, you're off to your next deluxe accommodation in a random foreign country of the CIA's choice. The unmatched cuisine of total deprivation, isolation tanks, and 180 decibal Skinny Puppy Greatest Hits will have you brain damaged in nothing flat! Just imagine, you will be forever wiped clean of any dreams of a free life in an egalitarian democracy, with justice, liberty and the pursuit of happiness. The Elites own our government, the corporations, the CIA, and now in short order with a Police State will own your ass too! Why wait now for the inevitable total servitude to come to your door?
